

Strengthening Our Parishes

JANUARY 2020

Installing new HVAC system is 'an act of hospitality'

St. Cyril of Jerusalem parishioners received a new heating and air conditioning system as a Christmas gift, thanks to their generosity to *Called to Renew*.

Replacing the church's 60-year-old system was the Encino parish's top priority for the campaign, and the first project accomplished as funds were received during the pledge fulfillment phase. The project had been discussed for many years, as the old system was prone to breakdowns — and costly repairs.

"I saw the *Called to Renew* campaign as the perfect opportunity to finally complete this much-needed improvement," says Father Eban MacDonald, pastor. The new energy-efficient system will provide savings on utility costs as well as maintenance.

Father MacDonald also sees installing the new HVAC system as "an act of hospitality."

"The new HVAC system will make the worship experience more comfortable for our parishioners and visitors," he says.

Wave 3 of *Called to Renew* begins

The third wave of parishes participating in *Called to Renew* are now launching their campaigns. These 59 parishes from across the Archdiocese of Los Angeles have a collective goal of \$42.285 million.

All parishes in the Archdiocese are participating in *Called to Renew* during a series of six waves through June 2021. *Called to Renew* has now raised 67% of its \$500 million goal, thanks to the generosity of 26,813 families across the Archdiocese of Los Angeles.

The 56 Wave 2 parishes are now concluding the fundraising efforts they began in July, having raised \$50 million — 129% of their collective goal.

An Update on Our Campaign

Thank you for your generous support!

Goal: \$500,000,000
Raised to Date: \$332,950,273

Percent of Goal: 67%
Number of Gifts: 26,813
